SYLVAN HALL PROJECT

Sylvan Hall has served the people of Lochaber and area for the past ninety years. Our venerable building is now in need of significant repairs. The LCDA is proposing to undertake a project to carry out the required maintenance, plus modernize, restore and expand the Hall, grounds and other associated facilities. The LCDA will be calling on you for ideas as to improvements that you would like to see and for assistance toward carrying out this project. In order to get funding grants, you must demonstrate your support for this project by making a financial and/or work contribution towards this project. Watch for updates on project progress on our website www.lochaber.ca. We are looking forward to seeing a transformation of our community centre so that it can better serve the needs of our community, and we hope that we can count on your support in this endeavour.

A proud supporter of the Lochaber Strawberry Festival
