

Lochaber Community Development Association
Minutes of Monthly Meeting
Nov. 12/ 19

Attendees: Greg Carter, Michele MacEachern, Jane Mosby, Joanne Campbell, Paul McClung, Glen Terris, Barb Seplaki, Jim Webber

Announcements; 8 Dec/19 Christmas Tree Festival will be held along with the first of the Breakfasts to start
Sylvan Lakers will not be selling tickets on a Christmas basket

Minutes of the previous meeting excepted, motion by Glen and 2nd by Jim

Water report- Glen- The Dept. Of Environment has changed tolerable limits of manganese and as a result the water at the Community Centre does not pass. It may be possible that the chemical which has all along been placed in the water system was not carried out lately.

Treasurer's Report: Report given by Michele MacEachern motion made by Jim, 2nd Glen and passed to except it

Cleaning Heat Coil: Reported by Jim that Boyd MacIsaac has called the company in the US that designed the coil and they say that being in fresh water the coil should not have to be cleaned for 20 year. It would be a good idea to have a diver look at it and take pictures and Boyd has stated that could be done next summer.

Accessibility Grant. Apparently the grant was reject as there was some problem with communication with the government Dept.

Seniors Program: May still be going ahead, but looking for new members

Park Bench Program: Carolyn has info on the matter but is away at this time

Greg Carter brought up the situation during the last hurricane in which the Community Centre was not open and people would have wanted a place to go and have heat and cooking facilities available. After discussion on the mater Glen Terris will head up a committee to come up with a policy for such.

Meeting was Adjourned...
