

Lochaber Community Development Association  
Minutes of Monthly Meeting  
December 10, 2019

**Attendees:**

Ken May, Bonnie May, Harriet MacMillan, Carolyn MacDonald, Dorothy Kerns, Carol Young, Edwin Demont, Bev Tait, Joanne Campbell, Lorraine MacDonald, Glenn Terris, Jim Webber, Joan Lewis, and Keith Lewis.

**Agenda Items:**

- Requesting to have signage placed in the right of way just before the entrance to the Centre (both ways) as it is somewhat hard to see the entrance, especially at night.
- Also, requesting guardrail be installed directly across from the Centre on the opposite side of the road as it can be slippery leaving the Centre at night. The fear is that someone could go right across the road and down over the steep bank before getting stopped.

**Motion put forward by Lorraine MacDonald to contact Doug Cameron @ Department of Highways to discuss signage and guardrail being placed at the entrance to the Centre. Seconded by Dorothy Kerns**

**Approval of Minutes:**

Motion to approve - Ken May  
Second by: Carol Young

**Reports:**

Treasurer Report for November - Approved by Jim Webber  
- Second by Glenn Terris

Senior's group donated \$1000 to LCDA. A huge thankyou went out to the seniors.

**Committees:**

Slideshow For Centre - A big thank you went out to Bonnie May and all those involved in participating to get this slideshow completed for our Xmas Breakfast. As was discussed at the meeting this will be an ongoing/everchanging slideshow and community members are still coming forward with information.

Power Outages - Glenn Terris is heading up a Community Centre procedure to answer questions (who, what, when, where, why, and how) for volunteers who have agreed to open up the Centre to provide a warm place for community members to go during a prolonged power outage. Greg Carter provided a power outage notification statement that will go out to the Community when the procedure is completed. There will be a dry run for volunteers at the

Centre so they will know what they are required to do as a volunteer at the Centre during a power outage.

**Other Business - Updates:**

- Heat Coil cleaning/diving - To be completed in 2020
- Accessibility Grant Application - Will find out if the grant is still available and if so update grant application and resubmit. Glenn & Carolyn
- Park Bench Program - Pictou Community College is making a couple of samples of steel/wood benches in their sheet metal program for LCDA to take a look at. Sent a picture of one of the samples and it looks great. Will wait to see the second sample.
- Seniors Program -seniors will advise on the status of their program in the new year.

**Adjournment:**

Meeting adjourned at 8:00 pm

Next meeting January, 2020
